

ByobWebsite - lesson 5 - WP eStore Shorcodes

	Affects	Shortcode	Description
Category Display			
	All categories	[wp_eStore_list_categories]	Display a plain list of all the categories
	All categories	[wp_eStore_list_categories count=true]	Display a plain list of all the categories with product counts
	All categories	[wp_eStore_list_categories_fancy]	Display a list of all categories in a stylish way in a post or page
	Individual category	[wp_eStore_category_fancy id=1]	Display a category with stylish thumbnail image, category name, description in a post or page
	All products within a category	[wp_eStore_category_products:category_id:1:end]	Display all the product(s) from a particular category in a post or page
	All products within a category	[wp_eStore_category_products_fancy id=1 style=3]	Displays all the product(s) from a particular category on a post or page using a fancy display. You can modify the "id=1" to match with the category id that you want to use. You can also modify "style=3" parameter to customize the display option (for example use "style=5" to use the fancy5 display)
	All products within a category	[wp_eStore_category_products_fancy id=1 style=3 order=1]	Displays all the product(s) from a particular category on a post or page using a fancy display. You can modify the "id=1" to match with the category id that you want to use. You can also modify "style=3" parameter to customize the display option (for example use style=5" to use the fancy5 display). You can modify "order=1" parameter to customize the display order. You can use one of the following values for the "order" parameter: 1: Sort by product ID in ascending order 2: Sort by product ID in descending order 3: Sort by product name (a-z) 4: Sort by product name (z-a)
	All products within a category	[wp_eStore_category_products_fancy id=1 style=3 order=1 type=1]	Similar to the previous shortcode but you can additionally specify the type of button to use for the display. You can modify "type=1" parameter to customize the type of the button to use. You can use one of the following values for the "type" parameter: 1: Use "Add to Cart" type button 2: Use "Buy Now" type button 3: Use "Subscription" type button 4: Use "Download Now" type button
	All products within a category	[wp_eStore_category_products_fancy id=1 style=3 order=1 type=1 number=5]	It works just like the previous shortcode but you can additionally specify the number of products to show from the category. You can modify "number=5" parameter to customize the number of products to be displayed from a particular category.
	All products within a category	[wp_eStore_fancy_category_display id=1 style=1]	Display a category with a fancy display style
	All products within a category	[wp_eStore_category_products_fancy3 id=1]	Displays all the product(s) from a particular category on a post or page using Fancy3 display (Useful for grid view)
	All products within a category	[wp_eStore_category_products_fancy4 id=1]	Displays all the product(s) from a particular category on a post or page using Fancy4 display

ByobWebsite - lesson 5 - WP eStore Shorcodes

Affects	Shortcode	Description
